

Avyantrix

Team Onboarding Guide

Add new team members via the web interface only

Version: March 2026

Audience: Avyantrix administrators

CONFIDENTIAL - contains admin credentials

Contents

Part A Admin Reference

1 Platform

Use Part A for logins and URLs. Follow Part B in order for each new hire.

PART A - Admin Reference

1. Platform URLs

Service	URL / Purpose
Workspace	https://workspace.avyantrix.com Files, Mail, Calendar, Dashboard
Webmail	https://mail.avyantrix.com/login Browser email for any @avyantrix.com user
Mail admin	https://mail.avyantrix.com/login Log in as admin to create mailboxes
Status	https://status.avyantrix.com Service health monitoring
Website	https://avyantrix.com Public site (Vercel)
Server IP	200.234.46.146 Hostinger VPS (SSH only)
Email domain	@avyantrix.com

2. Administrator Credentials

CONFIDENTIAL: Store this PDF securely. Do not email or publish publicly.

Workspace admin (Nextcloud)

Field	Value
URL	https://workspace.avyantrix.com
Username	avyadmin
Password	v6Oi4WL4Av9QnJwuN1!
Purpose	Add users, groups, apps, theming

Login steps:

1. Open <https://workspace.avyantrix.com>
2. Username: avyadmin
3. Password: v6Oi4WL4Av9QnJwuN1!
4. Profile icon (top right) > Administration settings

Mail admin

Field	Value
URL	https://mail.avyantrix.com/login
Username	admin
Password	8dUpcFFSmBZBZUquB2!
Purpose	Create and manage mailboxes

Login steps:

1. Open <https://mail.avyantrix.com/login>
2. Username: admin
3. Password: 8dUpcFFSmBZBZUquB2!

4. Open Administration / Management

[Mail recovery](#)

Field	Value
Username	admin
Password	vk2auVLOKTz67BIpR1!
Purpose	Server/API recovery - not needed for normal UI work

3. Mail Server Settings (all users)

Use these when connecting any mailbox in the Mail app, phone, or Outlook:

Setting	Value
IMAP host	mail.avyantrix.com
IMAP port	993 (SSL/TLS)
SMTP host	mail.avyantrix.com
SMTP port	465 (SSL/TLS) - preferred
SMTP alt	587 (STARTTLS) if 465 blocked
Username	Full email: name@avyantrix.com

4. Existing Accounts

Type	Account
Workspace admin	avyadmin
Workspace user	debsmit
Workspace user	hr (admin group)
Mailbox	hello@avyantrix.com
Mailbox	team@avyantrix.com
Mailbox	hr@avyantrix.com

hr@ password: Debsmit@16112003

hello@ and team@ passwords: /opt/avyantrix/backups/.mailbox_credentials on server

PART B - Onboarding Process (UI Only)

5. Overview

Workspace login and email are separate. Creating a Nextcloud user does NOT create an email address. For each new hire, complete all 3 steps below in order.

Step	Where	Result
1	mail.avyantrix.com (admin)	Mailbox: name@avyantrix.com
2	workspace.avyantrix.com (admin)	Workspace login
3	workspace Mail app (user)	Email inside workspace

6. Step 1 - Create Email Mailbox

Do this FIRST in Stalwart mail admin.

1. Open <https://mail.avyantrix.com/login>
2. Log in: admin / 8dUpcFFSmBZBZUquB2!
3. Go to Administration > Accounts
4. Click Create account
5. Fill in:
 - Username: priya (becomes priya@avyantrix.com)
 - Domain: avyantrix.com
 - Password: strong password
 - Display name: Priya Sharma
6. Save. Mailbox is now live.

7. Step 2 - Create Workspace User

Do this SECOND in Nextcloud admin.

1. Open <https://workspace.avyantrix.com>
2. Log in: avyadmin / v6Oi4WL4Av9QnJwuN1!
3. Profile icon > Administration settings > Users
4. Click + Add new user
5. Fill in:
 - Username: priya
 - Display name: Priya Sharma
 - Password: set password
 - Group: staff (use admin only if full admin access needed)
6. Save. User can log in to workspace. Mail NOT connected yet.

8. Step 3

Do this THIRD. User (or you logged in as them) connects Mail app once.

1. Log in to <https://workspace.avyantrix.com> as the new user
2. Open Mail app (envelope icon)
3. Choose Add mail account > Manual setup
4. Enter settings:

Setting	Value
Account name	Priya Sharma
Email	priya@avyantrix.com
IMAP host / port	mail.avyantrix.com / 993 SSL
SMTP host / port	mail.avyantrix.com / 465 SSL
Username (both)	priya@avyantrix.com (full email)
Password	Mailbox password from Step 1

5. Click Connect. Send a test email to confirm.

9. Share Credentials & Checklist

What to send the new hire (securely)

Service	Details to share
Workspace	URL: https://workspace.avyantrix.com User: priya Password
Email	priya@avyantrix.com Password
Webmail	https://mail.avyantrix.com/login (optional)

Checklist (per new hire)

- ☐ Mailbox created in Stalwart
- ☐ Workspace user created in Nextcloud
- ☐ User added to correct group
- ☐ Mail connected in workspace Mail app
- ☐ Credentials shared securely
- ☐ User sent test email
- ☐ (Optional) Gravatar set for email photo

10. Offboarding & Naming Rules

Removing a team member

1. workspace.avyantrix.com > Admin > Users > disable/delete user
2. <https://mail.avyantrix.com/login> > admin > disable/delete mailbox

Naming conventions

- Email: firstname@avyantrix.com or firstname.lastname@avyantrix.com
- Workspace username: same as email prefix (e.g. priya)
- Display name: full name
- Mail sender name: Avyantrix - Firstname

What is automatic vs manual

Feature	Automatic?
Avyantrix branding / theme	Yes
Files, calendar apps	Yes (empty)
@avyantrix.com mailbox	No - Step 1
Mail in workspace	No - Step 3
Gmail profile photo	No - Gravatar
